Target Audience

IVC 2020 will be of value to those medical professionals working in the venous area, including: vascular surgeons, general surgeons, interventional cardiologists, interventional radiologists, cardiologists, cardiothoracic surgeons, phlebologists and other physicians, nurses and technologists.

This activity is designated to address the following core and team competencies: Patient Care, Medical Knowledge, Practice-based learning, and interprofessional collaboration.

SCIENTIFIC ABSTRACTS

We invite you to participate in the International Vein Congress (IVC) abstract submission process – an opportunity to be considered for publication in the *Journal of Vascular Surgery: Venous and Lymphatic Disorders (JVSVL)*, the official journal of the Society For Vascular Surgery.

JVSVL abstracts are required to be between 50 (minimum) and 500 (maximum) words and must fall under one of the following categories:

Anti-Coagulation, Basic Science, Chronic Vein Obstruction, Compression / Wound Care, Diagnostic Testing and Imaging, Lymphedema, Superficial Vein Disease, Venous Thromboembolism / IVC Filters.

For more details on submission guidelines and to submit, please visit:

ivcmiami.com/abstracts.php

Deadline is **April 1, 2020**.

ACCREDITATION

In support of improving patient care, Ciné-Med is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC), to provide continuing education for the healthcare team.

Credit Designation Ciné-Med designates this live activity for a maximum of 21 *AMA PRA Category 1 Credits*[™]. Physicians should claim

only the credit commensurate with the extent of their participation in the activity.

Other Continuing Education Credits Nurses, Physician Assistants, Radiologic Technologists, Ultrasound Techs – visit the website for a full list of accredited designations.

LEARNING OBJECTIVES

- Discuss the use of ultrasound to diagnose & manage venous disease.
- Identify the potential safety issues associated with office-based venous surgery.
- Incorporate endovenous (thermal, chemical, surgical) modalities for closure of the refluxing saphenous vein.
- Select the best therapy for the eradication of secondary venous clusters with stab phlebectomy, powered phlebectomy, and foam sclerotherapy.
- Explain how to manage incompetent perforating veins & venous ulcers in the office.
- Discuss the management of iliac vein outflow obstruction.
